

Floral Acetate Card

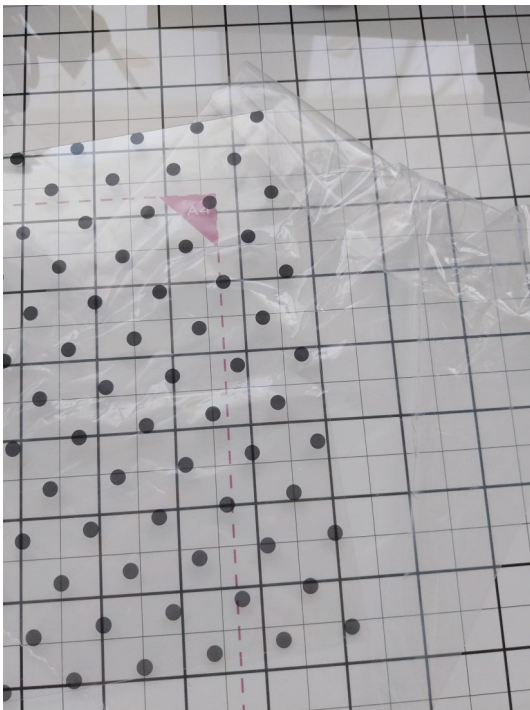

11/13/2023

WHAT YOU WILL NEED:

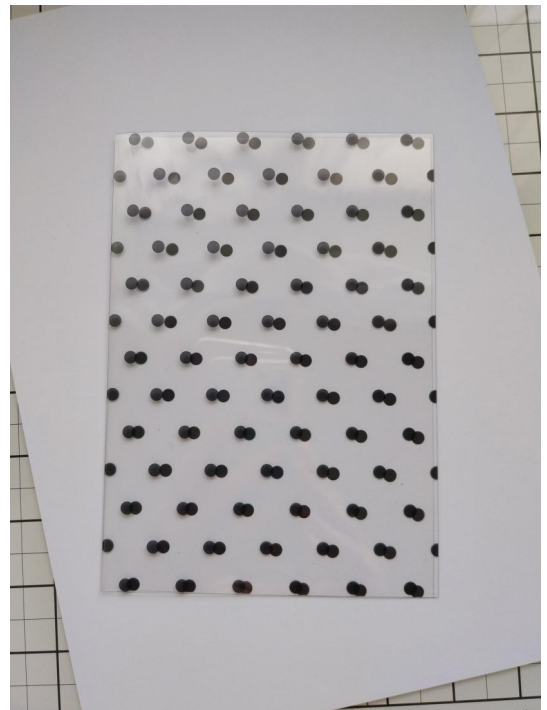

Floral Art A6 Painted Mounts
Teresa Collins 12 x 12" Clear Construction Acetate: Black dots
Friend Like You Lamination Stamp Set
SBM Midnight Hybrid ink pad
Heart Die
Sequins: Glistening Waves
Gem pick up and pokey tool
Twine
Score board and bone folder
Red liner tape
Foam sheet/foam pads
Die Cutting machine

STEP 1

Carefully peel away the protective film on the 12" square, black dotted acetate.

STEP 2

Use your scoreboard and bone folder to fold the acetate in half, to create your card blank.

STEP 3

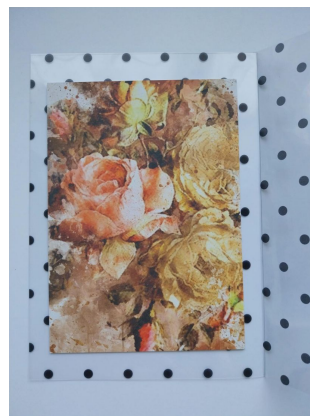

Choose **FOUR** different **designs** from the Floral Art painted mounts. You will need **TWO** sheets of one of the designs, this being the front design on your card. One needs to be a slighter "lighter" design, as you will be stamping your sentiment on to this one.

STEP 4

Adhere **ONE** of the two **front cover mounts**, on to the front of your acetate card blank, using red liner tape. Set the second mount to one side for now.

STEP 5

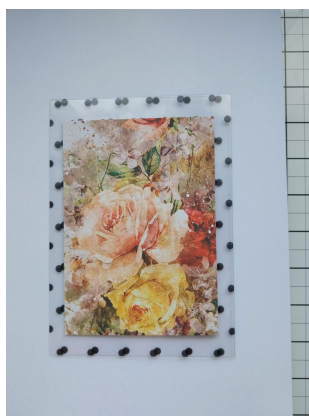

Adhere a different mount on to the inner left page of your card blank, lining it up with the one on the front, thus covering up all the "workings".

STEP 6

Adhere the "lighter" design mount, on to the inner right page.

STEP 7

Adhere your fourth design on to the back of your card blank, again lining it up with the one on the inside.

STEP 8

Stamp the sentiment in the **Midnight ink**, on to the inner right page, before setting your card to one side.

STEP 9

STEP 10

STEP 11

Taking the other front cover painted mount you set aside earlier, die cut a heart. The size and position of the die cut heart is up to you.

Cut a piece of twine and twirl in to a rough circle shape, as seen here. Use your die cut heart as a guide, as you will want the twine to extend out, from behind.

Adhere foam pads or a heart cut from a foam sheet, on to the back of your die cut heart. Peel off the backing, arrange your twine and adhere to your card, ensuring you line up the floral design.

STEP 12

Finish with a few sequins, to add sparkle to your project.
