STEP 9

STEP 10

STEP 11

Smother your stencilled image with your anti-static bag!! You need it to be completely dry before stamping with the coordinating stamp, in the WOW sticky embossing ink. Apply the Gold embossing powder over the sticky image, shaking off and decanting any excess powder back in the pot. Ensure your heat tool is **HOT** before heat setting the powder.

Tear a panel of vellum slightly wider than the width of the stencilled card and deep enough for your sentiment to fit into. Wipe over the vellum with the anti-static bag before stamping and heat embossing your sentiment across the centre of the vellum panel. Lay across the bottom third of your embossed card, tuck the edges of the vellum over and secure on the reverse with your double-sided tape.

Cut a coordinating sheet of decorative paper, from the Gilded Gold paper pad, to 5 1/4 x 7 1/4".

STEP 12

Adhere your embossed card onto the paper and then onto your card blank.
