Layered Watercolour Floral Stamped Card

UN PROYECTO DE NUESTRO PROGRAMA EN VIVO - ANYTHING GOES WEDNESDAY - 23 DE MARZO DE 2022

SOBRE ESTE PROYECTO

Create a beautifully layered floral card using three coordinating A5 stamps that build up in depth and colour. The stamps layer perfectly to create a soft, watercoloured effect with realistic florals that look professionally painted.

CONSEJOS DEL PROGRAMA

- The three stamps are numbered and interchange easily—leaves work with both flower sets and vice versa.
- If you don't line up the layers perfectly, the watercolour effect is forgiving and the design still looks beautiful.
- You can stamp without spraying water if you prefer a cleaner, more graphic line-stamped look instead of watercoloured.
