Twisting Stencil Circle Pattern Background

UN PROYECTO DE NUESTRO PROGRAMA EN VIVO - CATCH UP WITH THE PEARLYWINKS LAUNCH IN THE HTCN...

SOBRE ESTE PROYECTO

Use the circular precision stencil to create a repeating pattern by twisting the design around. The stencil has multiple designs that can be rotated to create different looks, with masks to keep the design crisp and prevent bleeding between sections.

CONSEJOS DEL PROGRAMA

• Use a dry brush with the easy blends—the drier the brush, the better the result and the less likely the ink will seep under the stencil
• You can use the mask sections to create additional design elements and halo effects around your main pattern
