

Layered Vase with Foliage and Flowers

23 JANUARY 2026

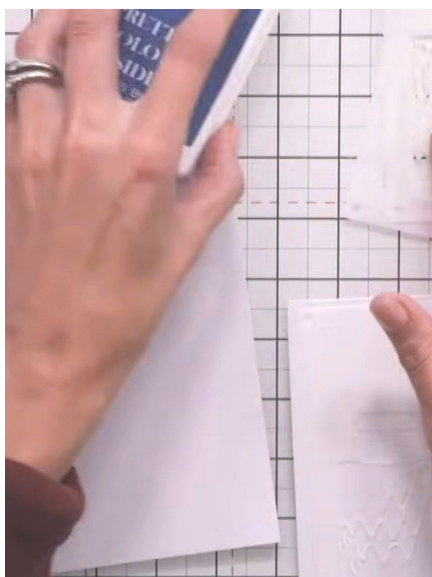

Create an elegant layered vase design with delicate foliage and flowers in soft pink and blue hues. This project uses stencilling and die-cutting techniques to build dimensional vases with a crystal glass effect, enhanced with pretty floral embellishments. The design combines reverse stencil work and careful layering to achieve a beautiful three-dimensional papercraft piece. From our live show **ONE DAY SPECIAL - Join Toni for her brand new launch - Broadcast 23rd January 2026** (23 January 2026) - watch it from 24:15.

Take the first foliage layering stencil (numbered one) and position it on your white card. Using Ocean ink, gently tap through the stencil onto the card to create the first layer of foliage.

STEP 3

Position your second foliage stencil over the card, aligning it carefully with the first layer. Use the blending tool to apply the second colour through the stencil, creating the next layer of the vase design.
Watch this step: 27:30 into the show

STEP 4

Continue with stencil number three from the set, applying the Hedgerow ink through the foliage areas. Press slightly harder with the blending brush to build up more colour and depth in the stems and leaves.
Watch this step: 29:30 into the show

STEP 5

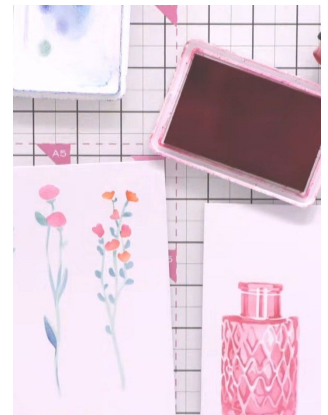

Apply stencil number four using brown ink to add the final layer of foliage detail to your card. Use a blending brush to apply the ink through the stencil, building up the greenery layers.
Watch this step: 31:00 into the show

STEP 6

Using the vase layering stencils, position the first stencil over your card and apply teal ink through the stencil to create the first layer of the vase design.
Watch this step: 33:00 into the show

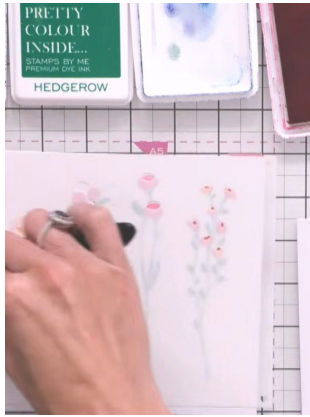

STEP 7

Using the second vase stencil, apply a contrasting colour ink (blue) to create the second vase layer. Position it alongside the pink vase to build dimension in your design.
Watch this step: 33:45 into the show

STEP 8

Apply the third vase stencil using your chosen accent colour ink with a blending tool to complete the layered vase design. Build up the colour gradually for depth and dimension.
Watch this step: 34:30 into the show

STEP 9

Add flower head details using additional stencils.

Apply pink and orange colours to create floral embellishments on the stamped flowers.

Watch this step: 35:00 into the show

STEP 10

Clean all stencils thoroughly under warm water between colour applications to prevent colours from mixing and to maintain crisp, clear designs.

Watch this step: 36:00 into the show

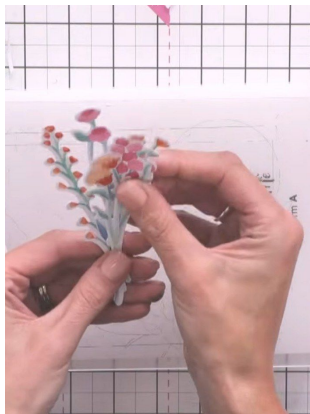

STEP 11

Use the coordinating dies to die-cut all the stamped foliage pieces. Cut them tall so you can trim them to size later when arranging your design.

Watch this step: 39:15 into the show

STEP 12

Die-cut the vase pieces and arrange them on your card.

Trim the foliage to fit inside the vase opening as needed.

Watch this step: 40:30 into the show

TIPS FROM THE SHOW

- Cut foliage tall rather than short so you have more to work with and can trim down as needed.
- Line up stencils at the edge of your card stock or follow the heart guides for consistent placement.
- You can use embossing powders on the greenery to make it shiny like real leaves in sunlight.
