ABOUT THIS PROJECT

Create a vibrant freehand painted card using confetti ink in multiple colours to build a leaf and floral background. The metallic paints deliver rich, creamy coverage on black or white card, creating a stunning multi-coloured effect with added white gel pen highlights and sparkle embellishments.

TIPS FROM THE SHOW

- If your brush feels too heavy, swap it for a smaller one to maintain better control.
- Work in clusters of three when adding decorative dots for a balanced, professional look.
- You can use your own metallic paints at home if you don't have confetti ink—just add a tiny amount to your brush tip.
