DIE CUTTING ●

ABOUT THIS PROJECT

Create a beautiful die-cut embellishment with a distressed foil finish using heat-set bonding powder and metallic foils. This technique produces a mottled, textured effect that looks stunning on card designs.

From the show: Join Toni LIVE in the HTCN Studio broadcast Wednesday 9th Feb 22

Shown: 9 February 2022

The project starts: 30:15 into the show

In this guide: 8 steps

STUCK ON A STEP? ASK TONI

Ask Toni on our website about any project, product or technique from the show.

STEP BY STEP

1**STEP 1 OF 8**

Cut a piece of white cardstock using the die-cut machine with the 'Something Wonderful' die.

WATCH THIS STEP - 30:15

2**STEP 2 OF 8**

Stamp the die-cut shape onto white cardstock using the sticky ink pad from the WOW starter kit.

WATCH THIS STEP - 31:00

3**STEP 3 OF 8**

Sprinkle the bonding powder from the foil bundle over the stamped image.

WATCH THIS STEP - 33:30

4**STEP 4 OF 8**

Heat-set the bonding powder using the heat tool on a low setting until it becomes shiny and tacky.

WATCH THIS STEP - 34:00

5**STEP 5 OF 8**

Cut a piece of foil (copper or pink) from the foil bundle to size.

WATCH THIS STEP - 34:45

6**STEP 6 OF 8**

Press the foil firmly onto the tacky bonding powder, burnishing with your finger to ensure good contact.

WATCH THIS STEP - 35:00

7**STEP 7 OF 8**

Peel away the foil carrier sheet to reveal the foiled die-cut with a distressed, mottled finish.

WATCH THIS STEP - 35:30

8

STEP 8 OF 8

For enhanced coverage, reactivate the bonding powder with the heat tool and apply a second piece of foil if desired.

WATCH THIS STEP - 36:15

TIPS FROM THE SHOW

- The distressed effect on die-cuts looks particularly effective because the mottled coverage enhances the dimensional quality of the cut.
- You do not need a laminator for this technique; the heat tool alone creates excellent results.
- Reheating the bonding powder allows you to apply additional foil for better coverage without damaging the piece.
