ABOUT THIS PROJECT

Sprinkle white embossing powder over the stamped image and tap off excess powder.

WATCH THIS STEP - 38:15

3**STEP 3 OF 12**

Heat the embossed vellum using a heat tool set to high temperature, holding it briefly to melt the powder and create a raised, glossy finish.

Spritz water onto the embossed vellum surface using a spray bottle, then paint over the embossed design with watercolour inks using a brush.

Add a second ink colour to the wet vellum, allowing colours to blend and bleed around the embossed lines.

Dry the painted vellum using a heat tool held at a distance to avoid reactivating the embossing powder.

WATCH THIS STEP - 43:00

[WATCH THIS STEP - 54:30](#)**TIPS FROM THE SHOW**

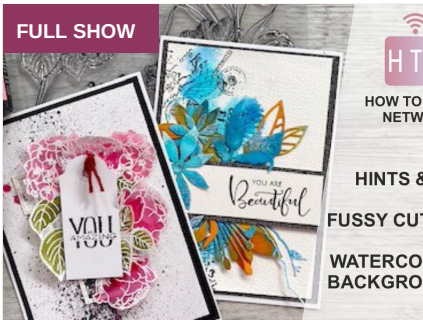

- Vellum is an underused material that works beautifully with heat embossing and watercolour painting techniques.
- White embossing powder traps water droplets when watercolouring, creating a lovely framing effect around the embossed lines.
- You can use alcohol markers instead of watercolour inks on vellum, and you can create splatters with alcohol markers as well.
