

Embossed Rose Card with Gilding Wax Accents

4 AUGUST 2025

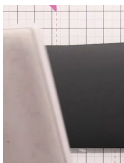

Create a striking card by embossing a rose design onto black card stock, then highlight the raised details with multiple colours of gilding wax. The layered metallic finishes in pink, green and pearl create an elegant, dimensional effect perfect for special occasions.

TIPS FROM THE SHOW

- You don't need all the colours—start with gold and silver as basics, then add rose gold and copper if you love the effect.
- Use your ring finger or a light tapping motion to apply the wax; don't press too hard.
- The waxes blend beautifully where colours overlap, so you can layer different shades.
