

Vellum Window Shaker Card with Dimensional...

6 JUNE 2025

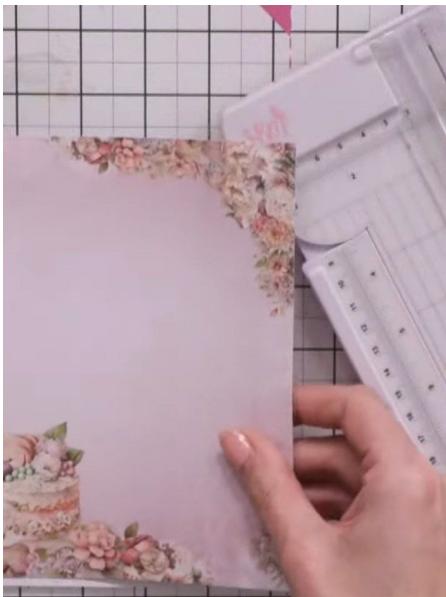

Create an elegant shaker card with a custom vellum window aperture featuring dimensional floral embellishments. This portrait-format design showcases soft pink tones with vintage-style flowers, greenery, and decorative cake imagery. The project combines die-cutting, vellum layering, and dimensional decoupage techniques to create a sophisticated greeting card with movement and depth.

Watch this step: 33:15 into the show

STEP 3

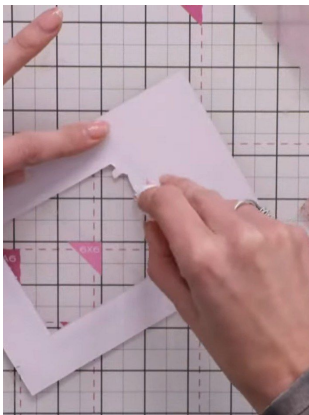

Using a craft knife and ruler, carefully cut a window aperture in the pink card, following the floral design as a guide for placement. Cut along straight lines to create a rectangular opening.
Watch this step: 34:00 into the show

STEP 4

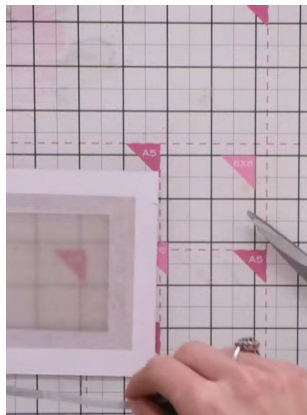

Trim any rough edges around the aperture with scissors to neaten the cut. Ensure all edges are smooth and clean for a professional finish.
Watch this step: 35:00 into the show

STEP 5

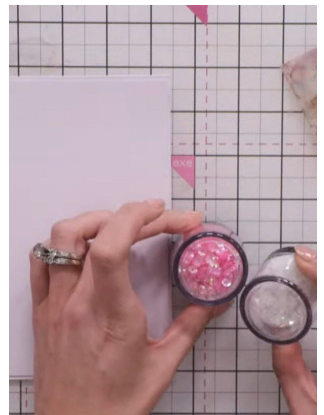

Select a light-coloured vellum sheet and cut it to size to fit behind your aperture window on the card front.
Watch this step: 38:00 into the show

STEP 6

Apply foam tape around the aperture window on the card to create a shaker chamber. Ensure the foam tape is sealed completely to prevent the shaker contents from escaping.
Watch this step: 39:00 into the show

STEP 7

Place a thin piece of white paper inside the shaker frame to act as a backing, preventing the embellishments from falling behind the vellum window.
Watch this step: 40:00 into the show

STEP 8

Add your shaker contents onto the paper backing inside the aperture. Use pink and white sequins and chunky glitter. Use an anti-static bag to prevent the glitter from sticking to the vellum window.
Watch this step: 44:00 into the show

STEP 9

Adhere the vellum window to the foam tape border, pressing firmly around all edges to seal the shaker chamber completely.

Watch this step: 46:00 into the show

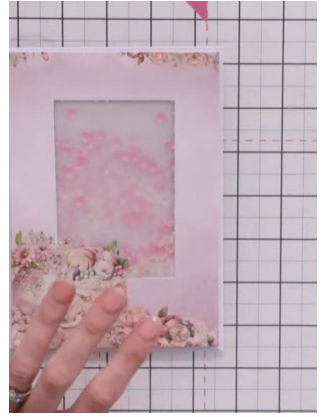

STEP 10

Mount the decorated vellum panel onto a white matting layer using adhesive. Then attach this mounted panel to your white card base using foam pads for dimension.

Watch this step: 48:00 into the show

STEP 11

Fussy-cut flower designs from your paper collection.

Add them to the top corner of the card using foam pads to create dimension.

Watch this step: 49:00 into the show

STEP 12

Add a second flower with greenery to the bottom area of the frame to balance the design. Trim the greenery flush with the flower edges before attaching.

Watch this step: 52:00 into the show

TIPS FROM THE SHOW

- If you don't have a moving blade cutter, use a rectangle die and cover the corners with embellishments to hide the straight edges.
- Use an anti-static bag over your vellum window before adding glitter to prevent it sticking to the surface.
- You can use mini foam pads stacked side by side instead of a large foam roll if needed.
