STEP 6

Die-cut the rose outline from grey cardstock using your die-cutting machine.

This will create a clean outline to layer over your stamped and coloured rose image.

Watch this step: 45:15 into the show

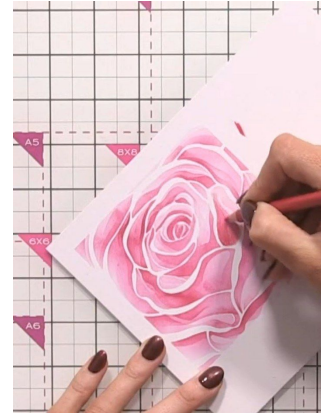

STEP 7

Use your Faber-Castell coloured pencils to add shading to the stencilled rose. Work with darker tones at the edges of the petals and lighter shades towards the centre to create depth and dimension.

Watch this step: 48:15 into the show

STEP 8

Add darker tones to specific petal areas using a darker pink pencil, varying your pressure to create depth and dimension.

Focus on the inner curves and shadowed areas of the petals to enhance the three-dimensional effect of the rose.

TIPS FROM THE SHOW

- Don't worry if your colouring goes over the lines—the die-cut on top will hide any mistakes.
- Vary your pencil pressure from dark at the edges to light in the centre to create dimension.
- You can use alcohol markers, pencils or ink pads on top of the stencilled layers for different effects.
