

Layered Hydrangea Stencil Card with Sentiment

2 APRIL 2025

Create a beautiful multi-layered hydrangea card using five numbered stencils and coordinating dies. This project builds dimension through layering different ink colours, resulting in a professional-looking floral design with sentiment words.

TIPS FROM THE SHOW

- If you're new to crafting, just get some colour down on your first attempt—don't worry about perfection.
- Make three cards at once using the same stencils without cleaning between them to save time.
- Start with light ink application and add more if needed; you cannot easily remove ink once applied.
