

Floral Fusion Layered Trellis Card with...

10 FEBRUARY 2025

A sophisticated card using the Floral Fusion collection's trellis die and papers to create a dimensional, layered design. The technique involves cutting the same paper pattern multiple times and stacking them to create a wedge effect that gives the illusion of depth when viewed from the side.

TIPS FROM THE SHOW

- When using the trellis die on coloured card stock, go over it with gilding waxes and confetti paints, dry brushing to bring out the wood texture and create realism in the wood grain.
- The trellis die is the hero of this kit and will be used repeatedly in your projects.
- The leaves can weave in and out of the trellis pattern for added visual interest.
