

Monochromatic Dreamy Blooms Layered Card

10 FEBRUARY 2025

A sophisticated monochromatic card using the Dreamy Blooms stencil, stamp and die-cut foliage set. The design features layered stencil work in greys and blacks, with a water-sprayed resist technique creating an abstract, artistic look that works beautifully on dark card stock.

TIPS FROM THE SHOW

- You can create a monochromatic effect in any colour by using card blanks and ink pads in the same colour family—try red, pink or yellow for different moods.
- If you cut the die-cut foliage, you will lose some of the splat details, but you can preserve them by using the stencils on the background paper instead.
- Create together Club encourages you to use alternatives from your existing craft stash rather than purchasing new items each time.
