### STEP 3

Take your ink pad and run it along the edges of your sentiment strips to create a faux layered effect with colour. Allow the ink to settle briefly, then pick up the strips with your acrylic block.

**Watch this step:** 19:00 into the show

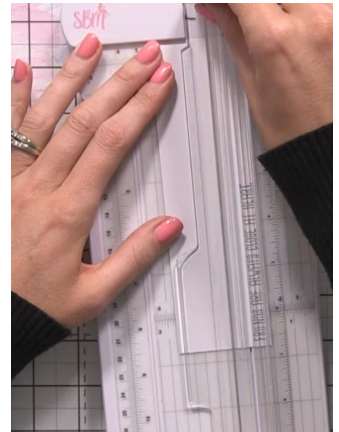

### STEP 4

Cut a piece of vellum to overlay on your card base. You can adjust the length to suit your preference - it doesn't need to be as long as the card base.

**Watch this step:** 20:00 into the show

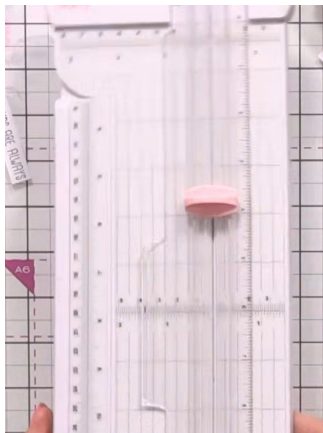

### STEP 5

Position your vellum overlay on top of the card base. Secure it in place using double-sided tape at the edges.

**Watch this step:** 20:30 into the show

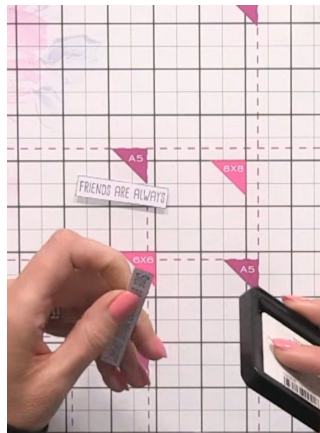

### STEP 6

Arrange your sentiment strips on top of the vellum overlay, positioning them at varying heights for visual interest. Place the strips so they create a pleasing composition across the vellum panel.

**Watch this step:** 21:00 into the show

### STEP 7

Secure each sentiment strip to the card using double-sided tape, keeping them as straight as possible. Position the strips evenly across the vellum overlay.

**Watch this step:** 21:30 into the show

### STEP 8

Step back and assess the card, ensuring the lines of the card base, vellum overlay, and sentiment strips align neatly. Check that all three sentiment strips are positioned horizontally and evenly spaced on the green floral vellum panel.

**Watch this step:** 22:30 into the show

#### TIPS FROM THE SHOW

- You don't have to use sentiments exactly as they appear on the carrier sheet; you can trim and rearrange them as desired.
- Running your ink pad along the edges of card strips creates dimension without adding layers, keeping the card lightweight.
- Vellum looks completely different depending on what you place it on top of, so test your colour combinations before committing.
