

Watercolour Flower Card with Lamination Stamp

13 JANUARY 2025

Create a beautiful floral card featuring pink watercolour-effect flowers with detailed black outlines and green foliage. This project uses a clever two-part lamination stamp system to achieve a realistic painted look without any painting skills required. The solid stamp holds vibrant coloured ink whilst the outline stamp adds crisp black detail for a professional finish. From our live show **MY PODCAST - Catch my latest updates broadcast 13th January 2025** (13 January 2025) - watch it from 23:00.

TIPS FROM THE SHOW

- The waterproof black ink used for detail won't move when you add water, so you can layer safely.
- Don't worry if colours blend into each other—this creates a realistic watercolour effect.
