STEP 5

Stamp the design again in exactly the same position to darken the top portion and create the reflection effect in the water.
Watch this step: 40:00 into the show

STEP 6

Carefully lift the stamp straight up to reveal the finished design. The reflection and shadow will create a natural-looking mirrored effect on the water. Allow the ink to dry completely.

TIPS FROM THE SHOW

- The reflection is built into the stamp, so no additional technique is needed.
- Using lighter ink first and then darker ink creates a realistic shadow effect in the water.
