

Watercolour Flower Card with Acrylic Block...

13 JANUARY 2025

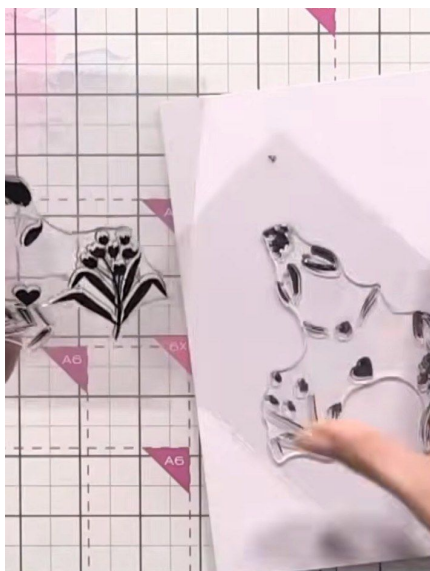

Create a vibrant greeting card featuring layered watercolour-effect flowers in coral, pink and green tones. The design showcases dimensional floral elements stamped and built up with coordinating images, set against a blended ink background in sunset hues of orange, pink and blue. Use an acrylic block technique to create the graduated background, then add your stamped flowers and a sentiment for a stunning handmade card.

Set the card aside to dry completely before continuing.

STEP 13

Adhere the die-cut flower elements to the watercolour background card using glue. Arrange the floral pieces to create a pleasing bouquet composition on the lower portion of the card.
Watch this step: 27:45 into the show

STEP 14

Add your chosen sentiment to the card using adhesive foam pads to position it between or below the flower arrangement. The foam pads will add dimension to your sentiment.
Watch this step: 28:00 into the show

TIPS FROM THE SHOW

- If you stamp one card, make at least two or three whilst you have all your inks and stamps out.
- You can use the same colour for multiple stamps or change colours with each layer for variety.
- For a grayscale version, use a dark grey ink pad and press lighter as you move down the acrylic block for a misty effect.
