4 JANUARY 2025

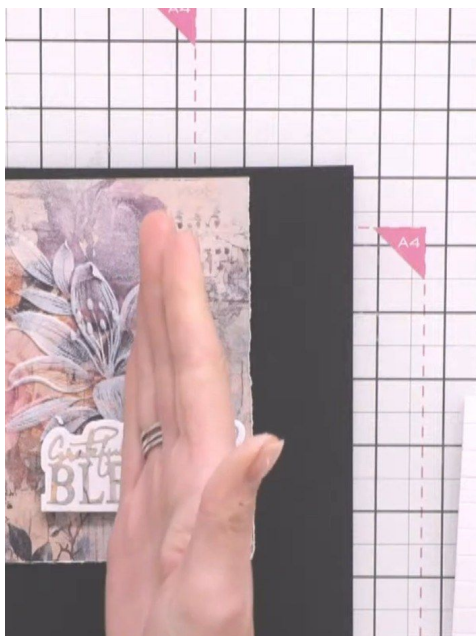

Create a stunning layered card featuring elegant purple tulips with a dotted and lined pattern effect. The tulips are positioned against a vibrant abstract floral background with coral, pink, yellow and grey tones. This project uses a detailed stencilling technique to build up beautiful dimension and texture through multiple layers. - The spots and lines within the stencils create beautiful detailed effects that look complicated but are actually simple to execute.
- You can create a bouquet by cutting multiple flowers or add grass stencil work to set the scene.
