STEP 1

Cut down a pink card blank to create a panel.

Cut white card panels to layer beneath the pink panel for a mat and layer design.

Watch this step: 13:15 into the show

STEP 2

Stamp the solid portion of your first lamination stamp onto the white panel using the colour ink pads. Apply pink, orange and teal

inks to different areas of the floral design to create a watercolour effect.

Watch this step: 17:00 into the show

STEP 3

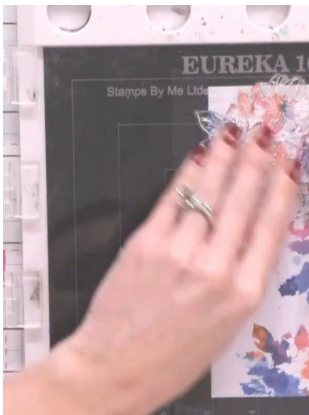

Spray the stamped panel with water several times to activate and blend the inks. Allow the card to absorb the colour and watch the watercolour effect develop.
Watch this step: 20:00 into the show

STEP 4

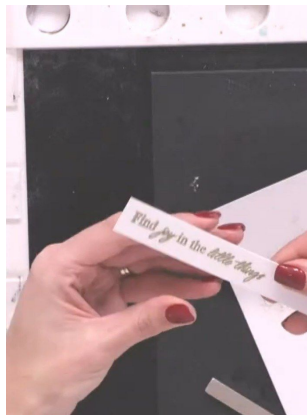

Use a heat tool to completely dry the watercoloured panel before moving on to the next step. Ensure all the ink is fully dry to prevent smudging.
Watch this step: 21:00 into the show

STEP 5

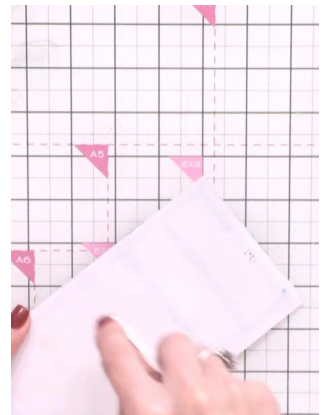

Using a sticky ink pad with gold embossing ink, stamp the detailed portion of the lamination stamp over the dried watercolour background to add fine line detail on top of the watercolour flowers.
Watch this step: 26:00 into the show

STEP 6

Apply gold embossing powder to the stamped floral areas. Tap off any excess powder back into the container.
Watch this step: 28:00 into the show

STEP 7

Heat set the embossing powder using a heat gun to create a raised, shiny finish on the stamped sentiment. Hold the heat gun a few inches away and move it gently over the embossed area until the powder melts and becomes glossy.
Watch this step: 33:00 into the show

STEP 8

Layer the decorated white panel onto the pink mat, then attach both layers to the white card base using adhesive.
Watch this step: 36:00 into the show

STEP 9

Stamp your chosen sentiment from the stamp set onto a white banner strip using black ink.

Position the sentiment centrally on the banner.

Watch this step: 37:00 into the show

STEP 10

Trim the sentiment banner with decorative scissors to create a fishtail or banner tail effect at one end.

Watch this step: 38:00 into the show

STEP 11

Adhere the sentiment banner across the front of the card, positioning it over the floral design. Use adhesive to secure it in place.

Watch this step: 41:00 into the show

TIPS FROM THE SHOW

- You do not need to use both parts of the lamination stamps; you can use just the outline if you prefer.
- The ink pads are soft cushion dye-based inks, so use only a light tap to transfer colour—do not bang the stamp.
- You can choose to stamp the detail portion multiple times to ensure all fine line detail transfers clearly to your card.
