

Embossing Folder Border Strip Card

11 OCTOBER 2024

Create a striking sunflower-themed card featuring a clever border strip technique using an A6 embossing folder. The design showcases a kraft and black colour scheme with white embossed sunflowers layered over decorative patterned paper. This simple technique demonstrates how to run a small embossing folder in two directions to create an extended decorative border element for maximum impact. WHAT YOU WILL NEED

See the show for everything used.

STEP 1

Take a piece of craft card and run it through the embossing folder in one direction to create the embossed pattern.

Watch this step: 49:30 into the show

STEP 2

Turn the embossed card around and run it through the embossing folder again in the opposite direction, creating a central gap between the two embossed sections.

Watch this step: 49:45 into the show

STEP 3

Mount the embossed kraft panel onto your card base, positioning it as a decorative border element on the right side of the card.

Watch this step: 50:15 into the show

STEP 4

Position your chosen sentiment stamp in the central unembossed gap between the two embossed sections. In this example, a sentiment reading 'Smile: a curve that sets everything straight' is being placed below the sunflower topper.

STEP 5

Optionally apply rub-on embellishments to enhance the design, positioning them to sit within the embossed sunflower pattern on the kraft cardstock.

TIPS FROM THE SHOW

- You don't need to apply ink to embossing folders with strong geometric patterns—the dimension is enough to make them interesting.
- The central gap can be any size you choose, allowing flexibility in sentiment placement.
- This technique works well for creating DL cards or longer strips by extending the embossed element.
