

You Are So Lovely Shaker Card with Woodland...

6 AUGUST 2026

Create a dynamic shaker card featuring a woodland aperture die with a tree silhouette, filled with glitter and embellishments. The card combines a vellum layer with fussy-cut woodland animals and foliage to create depth and movement behind the shaped window.

From our live show **THE THURSDAY DROP - Latest Products from Toni - Broadcast 6th August 2026** (6 August 2026) - watch it from 22:15.

WHAT YOU WILL NEED

- Stamps By Me Bundle - You Are So Lovely - 060826A

Cut the aperture die into white card stock using your die cutting machine, creating a shaped window with tree and woodland details.

Cut a second matching aperture shape to use as the back layer of your shaker card.

Watch this step: 23:30 into the show

Select a piece of patterned paper from the bundle and cut it to fit behind the aperture, choosing a design with a house or woodland scene.

Watch this step: 28:00 into the show

Glue the patterned paper piece to the back of the front aperture layer using a glue stick.

Watch this step: 33:00 into the show

Build a frame of foam pads around the entire back edge of the aperture, ensuring they connect all the way around to create a sealed shaker chamber.

Watch this step: 38:15 into the show

Pour colourless glitter into the shaker chamber, filling it partially so the contents can move freely.

Watch this step: 41:00 into the show

Seal the shaker by pressing the second cut aperture piece firmly onto the foam pad frame, creating a sandwich structure.

Watch this step: 44:00 into the show

Add a decorative border strip of vellum or patterned paper around the edges to frame the shaker card.

TIPS FROM THE SHOW

- If you're cutting card stock directly onto a hard plate and it won't cut through, place a piece of paper underneath to create a softer surface for the die to cut into.
- Use an anti-static bag on the back of vellum to prevent glitter from sticking to it, allowing the contents to shake freely.
- Don't overfill your shaker with glitter—a light covering is enough to create movement and capture light beautifully.
