

Creeping Blossom Layering Stencil Card with...

29 JULY 2024

Create a sophisticated card using layering stencils on coloured card stock with a white ink underlay technique. The creeping blossom design features a pink floral wreath that appears to have a ghost-like, embossed effect. Vibrant pink and coral colours are layered on top of the white base for a dimensional, elegant finish perfect for special occasions.

TIPS FROM THE SHOW

- Always go lighter with your ink colour first—it is easier to add more colour than to take it away.
- If you make a stencil layer too dark, clean the stencil, place it back on the card, and apply white ink over the top to push the colour back and lighten it.
- The white underlay technique on coloured card stock creates a ghost-like effect that makes the design look embossed and dimensional.
