

4x4x4 Cube Gift Box with No Glue

A PROJECT FROM OUR LIVE SHOW - MY PODCAST - 22 APRIL 2024

ABOUT THIS PROJECT

Create a sturdy cube-shaped gift box measuring 4 inches on each side using a single 12x12 sheet of paper. The box assembles without any glue using a clever hook-and-eye system, making it perfect for gifting small items like socks, ties or bath bombs.

TIPS FROM THE SHOW

- Once you have made the box once, you won't need to refer to the instructions again.
- Save your instruction sheet by laminating it so you can refer to it later if needed.
- You can stack boxes of different sizes inside each other for a nested effect.
