8 DECEMBER 2025

Create a beautiful floral card using pre-coloured die-cut magnolia flowers on coordinating double-sided cardstock. The flowers feature built-in shading and dimension, making it easy to achieve a professional look without colouring skills.

TIPS FROM THE SHOW

- The bleed around the edges helps with eye appeal and compensates for slight machine movement.
- You can twist and shape the flowers into different sizes and forms for variety.
- Use the stencil background created by the die on light pink cardstock for a coordinated background before layering flowers on top.
