STEP 4

STEP 5

Place the stamped design into the Sidekick machine with the corresponding framelet die positioned over it. Secure the design in place with a small piece of maker's tape to prevent it from shifting during die-cutting.

Watch this step: 7:45 into the show

Turn the crank handle on the Sidekick machine to run the die and cardstock through, cutting out the animal shape. Remove the cut piece from the machine and carefully separate it from the surrounding card.

Watch this step: 8:00 into the show

TIPS FROM THE SHOW

- The stencil platform keeps your paper in place while stamping, so little ones can't mess it up.
- Keep the stamped design on the stencil platform while colouring for a stable work surface.
